

SUPER FAKE NOTES ARE ON HIGH ALERT

Make your business more secure with

Counterfeit notes could potentially cost your business hundreds and possibly thousands of rupees. Improved printing technologies have led to a dramatic increase in high quality counterfeit banknotes. Fake notes are designed and fabricated in highly technical manner, which are nearly impossible to detect even by cash experts. The security features on fakes have improved so much that they look & feel like original.

MAXSELL has just delivered what you needed. Our latest technology is empowered with multi level detection and its enriched embedded software makes it the most reliable Fake scanner for Indian rupees. High precision technology gives no room for errors. With MAXSELL, Technology is always Affordable and Usable...
