

Buying a Gold Tester?
Don't get lost in a
maze of unwanted
features.

Maxsell Line Of Gold Purity Analysers

MX-GT Karat

Do not be misled by products offering you features that you do not require. Why spend money on what you will not use?

Just what you need. The MX-GT Karat has just the features you need for accurate, fast and reliable gold analysis - and you pay only for those features.

Bottom Mounting. The bottom mount system enables you to save time and a lot of effort by eliminating a hassle filled stage.

Quality, not quantity. Many will want you to believe that you can save time by analysing a larger area in one time - that just dilutes the results.

Highlights

- ✓ New Feature: USB Lock [optional]. Now you can have control over who uses the machine
- ✓ Integrated system - saves space and is makes it space clutter free [no messy cables]
- ✓ Easy to use and adopt through intuitive touch screen panel
- ✓ Simple software and user interface makes it easy to operate
- ✓ Bottom mount system - eliminates one inconvenient and time consuming stage of adjusting samples
- ✓ Non-destructive technique of analysing - does not melt or burn valuables
- ✓ Fast - get accurate results in just 40 seconds
- ✓ Precise point of focus - do not be misled by communications claiming a larger area of coverage - larger area only dilutes results
- ✓ Generate reports in multiple format - PDF, Excel, etc.

Specifications

Detector	High Resolution Micro Processor based Hermetic Proportional Counter
High Voltage	4-50 KV - Auto variable type to increase Tube Life
Accuracy	0.1% [Under optimized test conditions with standard samples]
Elements	Au, Ag, Pt, Cu, Ni, Zn, Pd, Cd, In
Testing Time	30 - 60 Secs [40 Secs for best results]
Test Area	1~2mm spot +/- 30micron
XRay tube	Dual Stage Cooling W-Target Xray Tube
Power Supply	110V to 260V, 50/60Hz
Dimension [mm]	400[L]x660[W]x330[H]
Weight	33kgs
