With the Power of one Maxsell machine, ensure

100% accurate results, with our tested & certified products that comply to American and European Quality standards

70% lesser operational complexity, with accurate machines that eliminate any double-checking

50% lesser operational time, with lightning fast, automated operations and non-stop performance.

60% higher customer satisfaction, by shortening cash handling time and enabling confidence in all transactions

50% lesser maintenance cost, with original OEM spares & matchless product warranty

Be it retail stores, institutions, jewelries, corporates or financial services,
We add value to each and every point of your cash chain.

Cash Counter

Avoid Long Queues

Serve more customers & win their hearts by detecting counterfeits & counting currencies quickly and efficiently, without making them wait for long.

Back Office operations

Put an end to cash handling complexities

Count, and validate accounts by detecting even slightest discrepancies accurately, which will ease your business operations.

Banking Services

Enable efficiency

Provide hassle-free experience to customers and carry out all cash handling operations more quickly & accurately with efficiency.

Matrix 8128 SF

1+1 Pocket Semi Fitness Sorter

Next generation of
currency sorting
is here

Specifications

Counting speed	- 800-1200 notes/min
Hopper capacity	- 500 notes (continuous feeding)
Stacker capacity	- 200 notes
Reject capacity	- 50-100 notes
Detection technology	- Twin CIS, UV, MG, MT, IR, 2D & 3D
Noise	- ≤60Db
Power supply	- 100-240V AC, 50/60Hz 3.0A
Power consumption	- ≤50W
Dimension	- 251(L)*271(W)*264(H)mm
Weight	- 8.5Kg
Interface	- RS-232, Printer, USB, SD card, LAN.

Designed in Germany

Touch screen with TFT colour display

Detects taped, graffitied & cut notes

Software Upgrade via USB, SD Card or LAN.

scan to watch video

(Display Optional)

Accurate counterfeit detection

With **Counterfeit Detection Sensor Technology & dual stacker design**, automatically detect & eliminate even superfakes without any stoppages.

Advanced sorting & detection

With advanced German technology, sort issuable & non-issuable notes by detecting fakes, taped, solid, graffitied, holed, teared & misoriented notes.

Scan & Record serial numbers

With **Twin CIS sensor & CMTS** (Currency Management Tools Software), scan, record and print serial numbers of each bank note with ease.

*Also available in Matrix 8120 V

Next generation technology

Connect to network with the optional **Smart Central Monitoring System (CMS)** & upgrade from a single point location without hassles.

*Also available in Matrix 8120 V

Matrix 8120 V

1+1 Pocket Sorter

Specifications

Counting speed	- 800-1200 notes/min
Hopper capacity	- 500 notes (continuous feeding)
Stacker capacity	- 200 notes
Reject capacity	- 50-100 notes
Detection technology	- Twin CIS, UV, MG, MT, IR, 2D & 3D
Noise	- ≤60Db
Power supply	- 100-240V AC,50/60Hz 3.0A
Power consumption	- ≤50W
Dimension	- 251(L)*271(W)*264(H)mm
Weight	- 8.5Kg
Interface	- RS-232, Printer, USB, SD card

Power Packed Performer

Designed in Germany

Supports upto 18 foreign currencies

Software Upgrade via USB or SD Card.

scan to watch video

(Display Optional)

Detect misaligned face & orientation

With **advanced German technology**, detect with utmost accuracy and eliminate notes with **misaligned face & orientation**.

Easy Maintenance

With tested dust-proof design, the machine operates seamlessly in any environment with little need for occasional maintenance.

Count more in less time

With the largest hopper capacity available in the market, count **500 notes at once**, through continuous feeding in much lesser time, without compromising on accuracy.

Supports foreign currencies

Perform value & batch counting of more than **18 different foreign currencies** with ease.

*Also available in Matrix 8128 SF

Matrix 8300

2+1 Pocket Banknote Fitness Sorter

The most advanced —
sorter yet

Specifications

Counting speed	- 800-1200 notes/min
Hopper capacity	- 500 notes (continuous feeding)
Stacker capacity	- 200 notes
Reject capacity	- 50-100 notes
Detection technology	- Twin CIS, UV, MG, MT, IR, 2D & 3D
Noise	- ≤60Db
Power supply	- 100-240V AC, 50/60Hz 3.0A
Power consumption	- ≤50W
Dimension	- 251(L)*271(W)*264(H)mm
Weight	- 8.5Kg
Interface	- RS-232, Printer, USB, SD card

 **Designed in Germany**

Dual operator UI & Large LCD display

Software Upgrade via USB, SD Card or LAN

Advanced sorting & detection

With a combo of the best detection technologies such as Double face image recognition, IR, MT & FL, efficiently sort based on fitness, denomination, face & orientation.

Record & store serial numbers

With sophisticated detection techniques, accurately recognize serial numbers and store & manage them for later use.

Dust-proof design

Detect & sort even highly soiled notes precisely, as the fully automatic dust-proof design can handle even highly exposed notes.

Easy maintenance

With dust proof design & twin dust collector tray, easily maintain the machine & also block noise & dust with special block door.

For authentication that transcends boundaries

CUBE 998

Multi Forex Value Counter-cum-Detector

Specifications

- Counting speed** - 250 notes/min
- Hopper capacity** - 100 notes (continuous feeding)
- Stacker capacity** - 100 notes
- Battery** - Rechargeable lithium battery
10.8V/2000mAH (Optional)
- Power supply** - DC 12V/ 2.0 A
- Power consumption** - ≤20W
- Dimension** - 170(L)*157(W)*152(H)mm
- Weight** - 1.8 Kg (Without Battery)

Designed in Germany

Optional rechargeable battery

Optional printer

Advanced technology to detect superfakes

With robust technology & 6-fold detection techniques, detect superfake notes in **upto 8 multi-forex currencies**, fed in any orientation.

Highly compact & portable

Compactly designed to appear aesthetic and can be easily carried to fit in any place.

Intelligent recognition technique

Recognizes, records & prints serial numbers of any length or orientation in all the supported currencies, for further authentication.

Always stay advanced & updated

Upgrade to the **latest software via USB / microSD** & make the existing hardware do more, without having to invest more.

Speed, convenience & longer duty cycle bundled in one

MX-50i Turbo+

Front Loading Value Counter-cum-Detector

Specifications

- Counting speed - 800, 1200, 1500 notes/min
- Hopper capacity - 400 notes (continuous feeding)
- Stacker capacity - 200 notes
- Detection technology - UV, MG, MT, IR, 2D & 3D
- Power supply - 100-240V AC, 50/60Hz 3.0A
- Power consumption - ≤60W
- Dimension - 287(L)*243(W)*248(H)mm
- Weight - 6.8 Kgs
- Interface - USB, RS-232 & RJ45

Designed in Germany

Runs in low voltage condition

Touch Keypad

(Optional Printer)

Faster than the fastest known

With 3 variable speeds & **hopper capacity that can hold 400 notes at once**, expedite your operations & enhance your service.

Instant Payment made easy

With Mixed Value Batch Function, easily pause counting when desired value is reached, even with mixed denominations.

Reliable Performance. No slips

Powered with SOS Technology & 6-fold detection, precisely **detect fake notes** & eliminate even half, folded or chained notes.

Upgradable & future ready

With the ability to upgrade to any future currency, Turbo+ is a one-time investment towards long-time benefits.

The accuracy you can rely on

MX-50i Pro+

Mixed Note Value Counter-cum-Detectors

Specifications

- Counting speed - 1200 notes/min
- Hopper capacity - 200 notes
- Stacker capacity - 200 notes
- Detection technology - UV, MG, MT, IR, 2D & 3D
- Power supply - 100-240V AC, 50/60Hz
- Power consumption - ≤80W
- Dimension - 330(L)*265(W)*220(H)mm
- Weight - 7.6Kg

Dust proof 3D sensor construction technology

Easy maintenance

(Display Optional)

Mixed Value Batch for easy counting

Pause counting when preset batch value is reached, even with mixed denominations, which makes currency segregation & payment easier

Dust Proof & Easy Maintenance

Completely dust-proof & easy-to-clean inner parts with top opening cover, makes maintenance easy, without any technician's help.

Accurate & Reliable Performance

With **SOS, 6-fold detection techniques**, detect counterfeits & misfits. Also transfer data from machine to PC for analysis with **CMTS (Currency Management Tools Software)**.

Upgradable for future currencies

Save big on investment by remaining up-to-date with all latest currency upgradations, without having to change your hardware often.

Fastest Bundle Counter on the Planet

Optional UV detector

Supports multi-currency

Counts unfit & soiled notes of any conditions.

Counts bundle in 2.5 seconds

Also available in grey colour

Runs continuously like a workhorse

With in-built heat and dust absorbing fan & 110V transformer to operate in low voltages, it's truly a workhorse, counting any currency & denomination at 2.5s per bundle.

Integrated with smart features

In-built batch presetting makes segregation from bundle easier, while the value adding & OK stamping will help reduce time & manual labor.

Sturdy build for robust operation

The specially designed injection mould ABS body helps the machine operate continuously & flawlessly even in harsh environments.

Advanced detection technology

Enhance detection power with optional 9-band UV detector, which can precisely count even misaligned & old notes with ease.

Customer Testimonials

Our staff have also reported highly satisfactory performance and saving a significant amount of time

Maxsell is the only brand that I trust in detecting fake notes. With a bundle of features and advanced software, Maxsell machines operate with 100% accuracy in all our branches. Our staff have also reported highly satisfactory performance and saving a significant amount of time by automating cash counting and validation

- IndusInd Bank

Just one machine can efficiently count and detect multiple currencies in just seconds!

Being in the forex, we deal with at least four currencies daily. Previously, we had 3 machines to perform various cash handling operations. It was a cumbersome process that directly affected our customers' experience until we switched to Maxsell. Just one machine can efficiently count and detect multiple currencies in just seconds! Maxsell has really transformed the way we do business

- Delhi Duty Free

I no longer wonder why almost all major jewellery prefer Maxsell

Maxsell is a trustworthy brand, recommended to us by our fellow jewellers. Looking at the speed of operation and their excellent after-sales service, I no longer wonder why almost all major jewelry prefer Maxsell. The machine also looks very smart and aesthetically appealing, giving our showroom a very sophisticated look

- Tanishq

We are now able to serve more customers and detect even super fake notes accurately

Maxsell counterfeit detectors have made our cash handling process very simple. We are now able to serve more customers and detect even super fake notes accurately. Moreover, the machines are compact & smart, and so they're very space saving

- H&M

Only a truly technological company can manage a change of such a scale and I am happy to have partnered with Maxsell

I appreciate Maxsell for quickly updating their machine to new note designs. Only a truly technological company can manage a change of such a scale and I am happy to have partnered with Maxsell. Also, I am very confident that Maxsell will upgrade their machines to newer designs, if any, in the future, in just a blink of an eye ensuring the smooth running of businesses

- Cholamandalam

Trustworthy and detection of fake note is accurate

We have tried Maxsell 50i Counting Machine, We have found that the claim by the company for detection of fake notes is trustworthy and detection of fake note is accurate in terms of existing Note designs.
